Team Contract

Team Name: **Group B**

GOALS: What are our team goals for this project? What do we want to accomplish? What skills do we want to develop or refine?
Our primary goal is to deliver a high-quality analytical report (1000 words) that meets postgraduate distinction-level standards. Specifically, we aim to: • Develop a clear and substantive business question aligned with Airbnb's strategic objectives. • Apply classical machine learning techniques (Regression & Clustering) appropriately and analytically. • Demonstrate strong justification, interpretation, and critical reflection in line with the marking rubric. • Produce professional-quality visualisations tailored to an executive audience. • Strengthen collaborative communication in a virtual team environment. • Refine skills in applied machine learning, structured academic writing, and strategic business analysis.
EXPECTATIONS: What do we expect of one another in regard to attendance at meetings, participation, frequency of communication, the quality of work, etc.?
We expect from each team member: • Timely submission of allocated sections according to agreed deadlines. • Active participation in discussions (via WhatsApp and email). • Academic writing supported by Harvard-style references where required. • Clear linkage between theory, analysis, and business impact. • Respectful communication and constructive feedback. • Transparency regarding availability or unforeseen delays. Quality standard: Contributions should be analytical rather than descriptive and aligned with postgraduate grading criteria.
POLICIES & PROCEDURES: What rules can we agree on to help us meet our goals and expectations, such as preparatory tasks, generating ideas, evaluating outcomes?
To ensure effective collaboration, we agree on the following: • The project lead (Naeema) will coordinate structure, integration, and final editing. • Each member will draft their allocated section independently and submit it by the agreed deadline. • All sections will be reviewed collectively before submission. • Visualisations and modelling decisions will be aligned with the methodology section. • A fixed communication channel (WhatsApp group) will be used for quick coordination, with email for formal communication if necessary. • All work must be original and compliant with academic integrity policies.

ROLES: Which roles do we need in this project and how do we allocate them? Will there be a project lead? Is there a need to rotate roles?

To ensure clarity and efficiency:

- **Project Lead & Technical Lead:** Naeema
  Responsible for data preprocessing, modelling, clustering, visualisations, and final report integration.
- **Business Context Lead:** Abdulla
  Responsible for business framing and strategic pricing rationale.
- **Predictive Analytics & Theory Lead:** Fatema
  Responsible for regression relevance and academic justification.
- **Methodological Justification Lead:** Jonas
  Responsible for classical ML rationale and critical positioning.
- **Strategic Implications Lead:** Kalifa
  Responsible for executive-level business recommendations.

Roles are fixed for this project to maintain accountability and clarity.

CONSEQUENCES: How will we address non-performance regarding these goals, expectations, policies and procedures? How do we resolve disagreements?

In case of delayed contributions:

- The member will inform the team as early as possible.
- The team may redistribute minor editing responsibilities if necessary.
- The project lead will ensure overall integration to maintain submission quality.

In case of disagreements:

- Issues will first be discussed within the group respectfully.
- Decisions will be made based on alignment with marking criteria and assignment brief.
- If necessary, the instructor may be consulted for clarification.

Our priority is maintaining professionalism and ensuring submission quality

By signing this contract, we confirm that:

- we have participated in formulating these goals, expectations, roles, procedures, and consequences as stated in this contact.
- we agree to abide by the contents of this contract
